

# C-CAM for C-MAC™

Going full circle in airway video imaging

- **One of the best system solutions in Airway Management ever!**  
All Karl Storz Airway Management Tools, such as fiberscopes, BONFILS, Videolaryngoscopes can now be connected to the C-MAC™ monitor
- **A video laryngoscope on its own doesn't manage the airway...**  
... but system solutions for every airway problem, with one fully integrated monitor does!
- **The end of the Stand-alone Philosophy!**  
C-CAM for direct connection to the C-MAC™ System
- **C-CAM – the new solution module!**
  - real VGA- resolution on the C-MAC™ screen
  - it takes only seconds to change all Karl Storz eyepiece devices
  - Real-Time-Video and picture documentation, of all interventions; such as fiberoptic intubation, bronchoscopy and videolaryngoscopy
  - C-CAM camera head validated for all reprocessing methods; such as manual / mechanical disinfection, High-Level-Disinfection, Steris®, Sterrad®, Sterrad® NX

**KARL STORZ quality products – synonyms for reliability and innovation in endoscopy for more than 65 years.**

**We understand, what  
Airway Management means!**
